

# 4 Ways Brightspace Can Help Tackle Faculty Burnout

A powerful LMS can offer valuable learning technology solutions for students. Equally as important, it plays a huge role in a faculty's day-to-day and subsequently, their overall satisfaction with their role as an educator. Here are four ways D2L Brightspace can help tackle faculty burnout at your institution.

## 1 SAVE TIME WITH STREAMLINED WORKFLOWS

Using technology to automate daily, repetitive tasks will allow faculty to make the most of their time.

### Intelligent Agents

Automate reminders based on triggers, providing helpful nudges to keep learners engaged and on track.

### Quick Eval

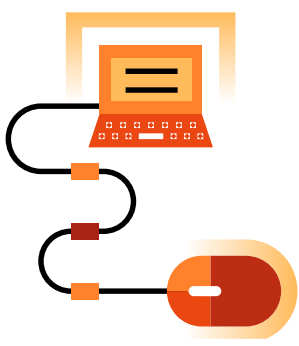

Access, sort and filter submissions from all your courses and tools in a single list of work to be assessed.

### Release Conditions

Create custom learning paths with automatically released enrichment or remediation content based on achievement.

## 2 EASILY ACCESS IMPORTANT DATA

Faculty can access visualizations of the impact they are having on student success, without manual data pulls.

### Class Progress

View, compare and track class and learner performance or dive deeper into student-level reports and detailed grade statistics.

### Mastery View

View and understand the overall level of achievement of learners related to each outcome being taught in a course.

### Powerful Connections

Learner data flows seamlessly into your SIS and other systems, meaning no double data entry for faculty and staff.

## 3 CONNECT, SHARE AND LEARN FROM PEERS

Participating in peer communities can lead to innovation, improvement and a strong support system among faculty.

### Discussions

Connect with online communities and faculty learning groups to ask questions, discuss important topics and work together.

### Professional Development

Ensure faculty constantly improve their skills and keep a pulse on what drives their passion for teaching by delivering PD in a familiar environment.

### Video

Connect with peers to discuss what's working, what's not and how it can be made better.

## 4 ACCESS TRAINING AND SUPPORT WHEN YOU NEED IT

In order to be confident in digital learning tools, Faculty need proper access to training and support.

### Brightspace Guided Training

Watch, learn, practice and teach. A step-by-step learning path to get you started with Brightspace quickly and efficiently. [Learn more >](#)

### Community

Available 24x7x365, the Brightspace Community is a great place to interact with other users online and get the latest news and information. [Learn more >](#)
