

Using D2L Brightspace to Support Faculty With Professional Development

Institutions often rely on several platforms to support their learning initiatives, all with unique requirements and challenges. Give faculty and staff the next-generation tools they need to succeed with Brightspace, the LMS built to deliver and enhance teaching, learning and professional development programs.

Organize and assign learning quickly and confidently with attributes and membership rules designed to make enrolment a breeze.

Provide Faculty a catalog of courses to browse and enroll into right from the Brightspace homepage with Discover.

Curate personalized Instruction for fully online courses and increase engagement with Release Conditions.

Tie Learning Objectives to assessments, giving faculty tangible credentials and outcomes from their learning efforts.

Track professional growth by collecting Awards, Badges and Certificates as evidence of microlearning, compliance training, learning objectives and more.

Instructors who take or teach courses at associated institutions can use Brightspace Site Tabs to easily switch between sites.
